

# **COURSE DETAILS**

Units of Credit 4 + 4 + 4

Contact hours as agreed with supervisor

Course Coordinators Terms 1 & 2:

Professor Ian Turner

email: ian.turner@unsw.edu.au

office: CE302 in Civil

## HANDBOOK DESCRIPTION

The thesis may describe directed laboratory, investigatory, design, field or research work on an approved subject and will be completed under the guidance and supervision of a member of the

Online Handbook description is available at MyUNSW:

www.handbook.unsw.edu.au/undergraduate/courses/2020/CVEN4951.html www.handbook.unsw.edu.au/undergraduate/courses/2020/CVEN4952.html www.handbook.unsw.edu.au/undergraduate/courses/2020/CVEN4953.html

## PROCEDURE FOR SELECTION AND CONFIRMATION OF A RESEARCH THESIS TOPIC

#### Your priority is to find a Supervisor and agree on a topic BEFORE ENROLLING in Research Thesis A.

Browse online search the selection of available topics and identify potential supervisors http://intranet.civeng.unsw.edu.au/info-about/student-intranet/honours

Note: It is unlikely that this list is fully up-to-date and comprehensive. It is essential that during the Term <u>prior</u> to enrolment in Research Thesis A that individual students approach School teaching staff in area(s) of potential interest, to explore the range of possible thesis topics that may be available.

- Discuss your selection with potential topic supervisors
- Once you have a Supervisor and topic, you will need to download, complete and sign (both you <u>and</u> your Supervisor) a <u>Research Thesis Form</u> → enrol yourself on myUNSW → then upload the signed form to the Student Intranet here: <a href="http://intranet.civeng.unsw.edu.au/info-about/student-intranet/submitthesis-application-form">http://intranet.civeng.unsw.edu.au/info-about/student-intranet/submitthesis-application-form</a>
- Please note that you will only be able to complete course enrolment for CVEN4951. The School will

That depends quite a bit on your field of study. However, all honours theses have at least two things in common:

- They are based on students' original research.
- They take the form of a written report, which presents the findings of that research.

## WHY WRITE AN HONOURS RESEARCH THESIS?

Satisfy your intellectual curiosity

This is the most compelling reason to write a research thesis. You have studied courses during your degree that perhaps really piqued yourwri96 reW00 9.96 Tf4

- There are no specific hours assigned to this course, except for the scheduled <u>Lunchtime Workshops</u> (see below).
- Meetings between the supervisor(s) and the student may take place periodically or by private arrangement.
- Should supervisors be on study leave or unavailable for a considerable period of the session, alternative arrangements need to be established and made known to both the student and course coordinator.

#### CONSULTATION

The course coordinator will be available by prior appointment to liaise with enrolled students as needed.

## EXPECTED LEARNING OUTCOMES (MAPPED TO BE PROGRAM LEARNING OUTCOMES

At the conclusion of this course, students should be able to:

- 1. Develop a design or a process or investigate a hypothesis following industry and professional engineering standards. (7, 8, 9, 10)
- 2. Critically reflect on a specialist body of knowledge related to their thesis topic. (3)
- 3. Apply scientific and engineering methods to solve an engineering problem. (7)
- 4. Analyse data objectively using quantitative and mathematical methods. (2, 7, 8)
- 5. Demonstrate oral and written communication in professional and lay domains. (12)

## **BE (Hons) Program Learning Outcomes:**

- 1. Comprehensive, theory-based understanding of the underpinning natural and physical sciences and the engineering fundamentals applicable to the engineering discipline.
- 2. Conceptual understanding of the mathematics, numerical analysis, statistics, and computer and information sciences which underpin the engineering discipline.
- 3. In-depth understanding of specialist bodies of knowledge within the engineering discipline.
- 4. Discernment of knowledge development and research directions within the engineering discipline.
- 5. Knowledge of engineering design practice and contextual factors impacting the engineering discipline.
- 6. Understanding of the scope, principles, norms, accountabilities and bounds of sustainable engineering practice in the specific discipline.
- 7. Application of established engineering methods to complex engineering problem solving.
- 8. Fluent application of engineering techniques, tools and resources.
- 9. Application of systematic engineering synthesis and design processes.
- 10. Application of systematic approaches to the conduct and management of engineering projects.
- 11. Ethical conduct and professional accountability.
- 12. Effective oral and written communication in professional and lay domains.
- 13. Creative, innovative and pro-active demeanour.
- 14. Professional use and management of information.
- 15. Orderly management of self, and professional conduct.
- 16. Effective team membership and team leadership.

## SUMMARY OF RESEARCH THESIS MARKED ASSESSMENTS

Rese	earch Thesis A: Component A1	Week 7	satisfactory/unsatisfactory
2.	Component A2	Week 10	10 % of Final Mark
Rese	earch Thesis B: Component B1	Week 8 (B+C: 3)	5 % of Final Mark
Rese	earch Thesis C: Seminar Abstract	Week 7	5 % of Final Mark
2.	Research Seminar	Week 10	10 % of Final Mark
3.	Thesis Submission	Week 11	70 % of Final Mark (incl. 10 % Supervisor)

Further details of the requirements for the Seminar Abstract and the format & scheduling of Seminars will be advised by the Course Coordinator during the term.

The Research Thesis is to be submitted electronically as a single pdf by 4.00pm on Friday of the submission week u u u u u

Further document requirements and upload instructions are available at this site. Students are encouraged to print for themselves a hard copy of their work, and supervisors may also request that they be provide a hard copy for their records.

#### PROCEEDURE FOR SEEKING APPROVAL TO ENROL IN RESEARCH THESIS B + C CONCURRENTLY

With Supervisor and School approval, students who demonstrate accelerated progress during Research Thesis A may be permitted to enrol in a 4+8 UoC structure, where Research Thesis B and C are both taken in the same term after Research Thesis A.
