CONCLUSION:

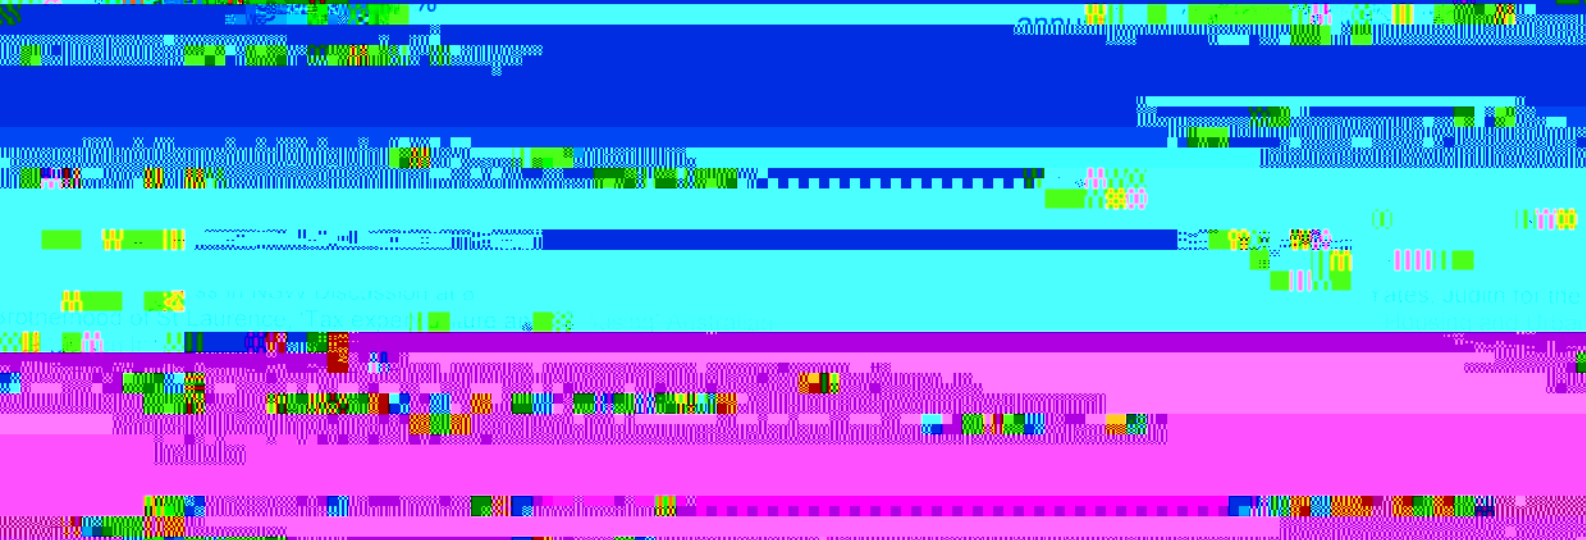

The housing crisis in the city of Kuala Lumpur is a result of a combination of factors, including the high cost of land, the high cost of construction, and the high cost of financing.

Recommendation:

There needs to be a

very at risk groups through social housing for short periods of time, out into the

private rental market.

It is important to ensure that the private rental market is not

overly regulated and that it remains a viable option for tenants.

The private rental market should be able to provide a range of housing options

and be able to respond to the needs of different groups of tenants.
