project under the supervision of a

member of academic staff in the School of Psychology. Research projects may be carried out on any topic that is relevant to clinical psychology. Candidates are required to prepare a thesis in the form of a journal article. Refer to the Guide to Research Projects document available on Moodle.

The aim of the course is to further develop trainees' skills in conducting research and teach them to prepare a report in the form of a research article for submission to a journal.

PSYC7230 Research Thesis (Clinical) 1 is a pre-requisite for this course.

CLO1: Plan and execute a research-based project that incorporates best practice in psychological research and that is applicable to the feld of clinical psychology.

CLO2: Synthesise and critically review literature associated with a research area to identify gaps in current knowledge and area(s) requiring further research.

CLO3: Independently undertake research activities in an ethical manner.

CLO4: Present a clear and coherent exposition of knowledge and ideas through preparation of a research thesis which includes literature review, research methodology, results and discussions.

CLO1: Plan and execute a research-based project that incorporates best practice in psychological research and that is applicable to the feld of clinical psychology.	 Progress with Research Thesis
CLO2: Synthesise and critically review literature associated with a research area to identify gaps in current knowledge and area(s) requiring further research.	 Progress with Research Thesis
CLO3: Independently undertake research activities in an ethical manner.	Progress with Research Thesis
CLO4: Present a clear and coherent exposition of knowledge and ideas through preparation of a research thesis which includes literature review, research methodology, results and discussions.	 Progress with Research Thesis

Moodle - Learning Management System

This course develops the candidate's capacity to conduct a theoretically-driven and clinically-relevant research project. Teaching in this course is delivered via supervision from the thesis supervisor(s), and through verbal and written feedback on drafts of research documents (e.g., proposal, procedure documents, thesis).

is a way of acknowledging the sources of information that you use to research your assignments. You need to provide a reference whenever you draw on someone else's words, ideas or research. Not referencing other people's work can constitute plagiarism. Further information about referencing styles can be located at https://student.unsw.edu.au/

referencing

is fundamental to success at university. Academic integrity can be defined as a commitment to six fundamental values in academic pursuits: honesty, trust, fairness, respect, responsibility and courage. At UNSW, this means that your work must be your own, and others' ideas should be appropriately acknowledged. If you don't follow these rules, plagiarism may be detected in your work.
